

Beacon Rental Information

The cost of the beacon hire is \$10 per day (minimum of 4 days) or \$50 per week. The bond on the beacon is \$499, but this is only charged to your credit card IF you fail to return the beacon.

The following are the things we will need to know in order to provide the beacon to you, book it out and take care of you. As the beacon is registered to MapWorld, we need all this information in case you need to activate the beacon and Search and Rescue need to look for you:

1. The contact phone numbers of three people WHO ARE NOT GOING on the trip.
2. The locations where the beacon could be activated (ie Abel Tasman)
3. The number of people in your party
4. Your own postal address and credit card details

The beacons we hire are the GME Accusat MT610G 406 beacons with an accuracy of around 50 metres. They are waterproof and they float. The instructions for activation are on the back of the beacon, so it's really easy to activate them.

If you need us to send the beacon to you, then we would be pleased to do so. This will add to the number of days you have the beacon as well as a delivery and retrieval cost.

Please confirm your booking as soon as possible. We will need your contact and credit card details (if you're wishing to rent the beacon at times of high demand) to secure the booking.
