

inReach Subscription Plans

PRICES IN NZD

Activate your inReach subscription¹ to send interactive SOS messages, texts, photos and voice messages² with your inReach-enabled device via the Iridium satellite network. Subscription plans also enable you to check the weather when off-grid or send tracking updates to friends and family at home.

All inReach subscription options are month-to-month, only require a 30-day commitment, and allow you to move up or down plan tiers when your tracking or communication needs change.

TEXT MESSAGES / WEATHER REQUESTS	\$0.95 ea	\$0.95 ea	N/A
PHOTO AND VOICE MESSAGES	\$1.90 ea	\$1.90 ea	\$1.90 ea

¹Most inReach devices can be activated on a subscription by pairing the device with the Garmin Messenger app on a smartphone. Subscriptions can be activated without using an app at explore.garmin.com

²Photo and voice messaging is available only with select devices enabled with inReach technology and requires use of the Garmin Messenger app on your compatible smartphone.

These plans are for individual NZ consumers only and subject to change. Each inReach device must have an active satellite subscription before inReach communication features will be available to it, including messaging, SOS, tracking, inReach Weather, and syncing account information. inReach Pro plans are available for multiple users and devices on one account.

All plans are billed monthly. Selected plan auto-renews monthly unless user changes plan selection or cancels before the next renewal date. All new plans are subject to the \$80 activation fee. Reactivation of a cancelled plan is subject to the activation fee. Additional charges apply to messages exceeding selected plan limits, as listed in the table above.

Some jurisdictions regulate or prohibit the use of satellite communication devices. It is the responsibility of the user to know and follow all applicable laws in the jurisdictions where the device is intended to be used.
